## About this item

- **【COMPATIBILITY】** : This is a high quality and compact adapter specially designed to connect SAE J1772 standard Electric Vehicles to NACS chargers. Type 1 vehicles will enjoy the most charging options when on road with this NACS adapter. It can apply to NACS Wall box/ Charger Connector/ Destination Charger/ Mobile Connector.
- **【FAST CHARGING】** : This charging supports 48 Amps of maximum current and 250V of maximum voltage, and the charging speed is faster than the level 1 charger .This adapter is designed to make EV charging quick and effortless.
- **【SMALL AND PORTABLE 】** : The adapter is not only light weight (1.2 pounds) but small volume (7.87\*3.93\*3.93in). Convenient storage,it can be placed in your glove box, armrest box, or trunk of your car.Highly portable for easy carriage and travel.
- **【BUILT TO LAST】** : This NACS adapter is made of thermoplastic with IP44 in working condition, rugged materials which can last over long periods of time. Adapter can work under the condition of - 22°F to 122°F (-30°C to 50°C) and has the characteristics of flame retardancy, pressure resistance and wear resistance, so it is very safe to use.
- **【IDEAL for DAILY and TRIP】** : With our adapter, SAE J1772 cars drivers can utilize NACS charger. So you can spend more time with your fmaliy and enjoy the scenery on the journey than finding a suitable charging station.
- **【CONTACT AND SUPPORT】** : KERUIDA technical support is always ready to answer any questions for you. If any of our products fail to meet your expectations, please get in touch with us and we will try to resolve the issue. Everyone may consider to add this accessories for his Electric Vehicle.

Carl G Medlock

The quality and ease of use is AWESOME

Reviewed in the United States on June 21, 2022

Verified Purchase

I own an EV repair shop and ordered one of these to add to our adapter collection. It's \$700 cheaper than the other one we purchased and works the same. I not only like this, but I also ordered every one they offer. They are well built, lightweight and they work. Thank you from Medlockandsons.com

Jenn D

Well made and works great

Reviewed in the United States on May 29, 2022

Verified Purchase

My job has spaces for electric cars to charge in the parking lot. There's four universal spots and 8 Tesla spots. I bought this as a backup plan in the event that all the universal spots are taken on a given day. I've been fortunate to only have to use it a few times so far but it works as advertised. Very solid construction and my Chevy Bolt charges on the Tesla chargers with no issues at all.

Worked for 5 months, then quit working

Reviewed in the United States on July 6, 2023

Verified Purchase

There is NO product support or Warranty info to be found. If you buy this, get the 3 yr protection. Usually when you attach it to the Tesla charger, all things seem to remain the same. Now there is a "communication error" when I attach it. It happened a few times early on, but would correct itself after I would reconnect the device. Now it remains in error

I purchased this adapter for a hotel stay and it worked great to charge my NiroEV. The adapter feels solid and is small enough to fit in the glovebox.

Exceptional adapter

Reviewed in the United States on November 4, 2022

Verified Purchase

I have a Tesla and a Tesla charger in my driveway. This adapter allowed me to charge my daughter's Jeep plug-in hybrid. Works great and has a quality build.

Charge Your Non-Tesla EV At Any Charger

Reviewed in the United States on October 18, 2022

Verified Purchase

With this adapter in the trunk, I can easily access all Level 2 chargers even if a Tesla-only unit. The result is a reduction in range-anxiety...The adapter snaps on quickly and easily. I do think the price for this simple piece of plastic (though it feels satisfyingly sturdy in my hand) is on the high side.

Does not work for my 2022 Jeep Wrangler 4xe

Reviewed in the United States on April 25, 2022

Verified Purchase

Ordered this for my vacation. But this does not work for my 2022 Jeep Wrangler 4xe. I have tried it on all types on public Tesla plugs available on road.

### incompatible with the Volvo XC90 Recharge

Reviewed in Canada on October 23, 2023

**Verified Purchase**

Overall product quality is excellent, but it does not work with the Tesla charger 3rd gen ( output is 200-240V - 48A 50/60Hz) and is incompatible with the Volvo XC90 Recharge.
